Wholistic  
health—  
wellbeing for  
the elderly.

Thankful to God  
for the harvest  
He gives and the  
oportunity to  
share it.

Our hands are God's instrument—the elderly use their talents to plant and to color Bible stories.

Activities that keep our motor skills sharp have sparked the interest of the elderly.

The awareness of sharing, always ready to offer support to those that need it.

Friendship,  
youth, and the  
joy of friends  
you can count  
on.

A time for  
rest,  
enjoying  
nature  
and good  
company.

# Project for 2016: InterGenerational Center

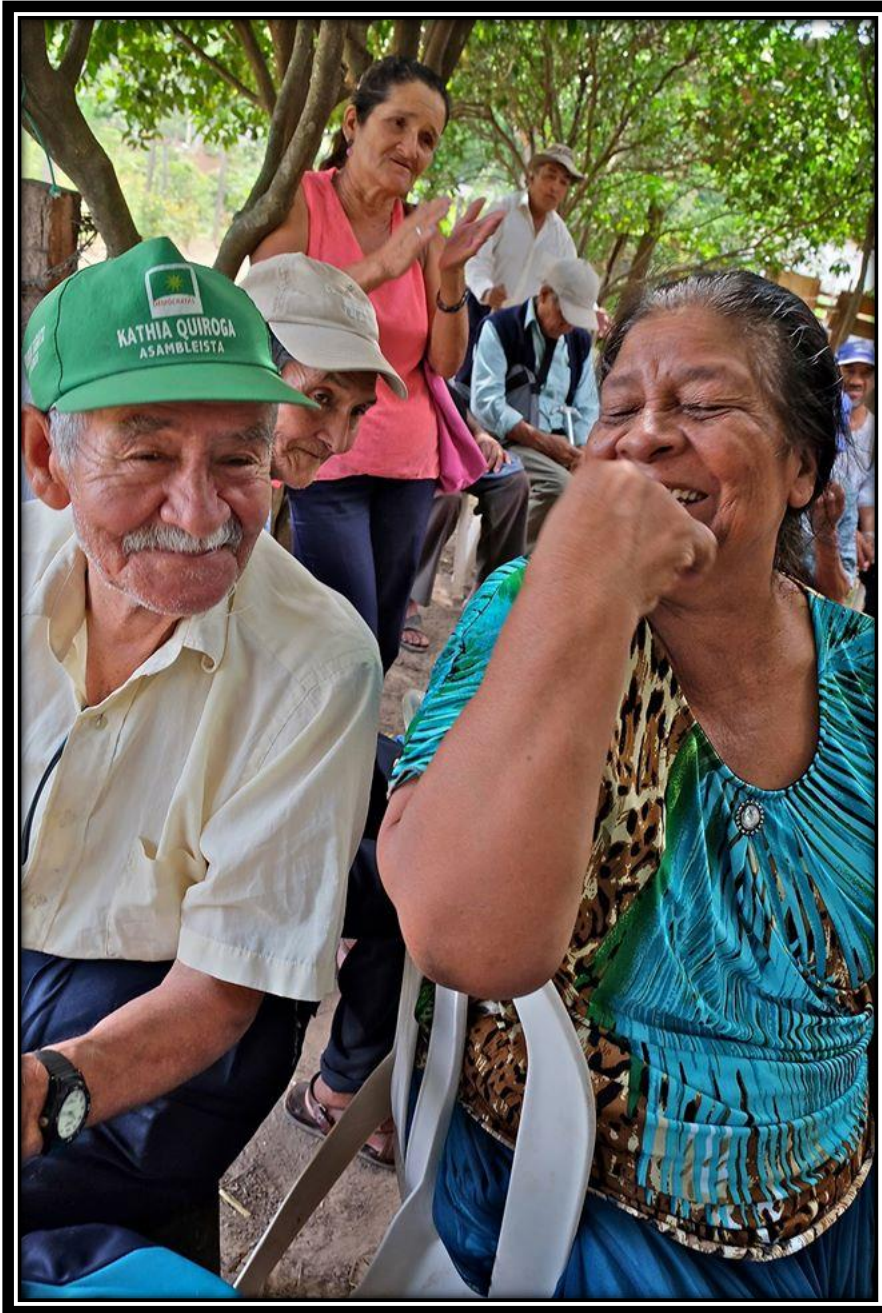

- The basic objective: transmitting intergenerational values
- Offer a space where youth can share their energy with the wisdom of the elderly.
- For a Happy Life...cultivate respect and positive attitudes through the experience of the elderly

Together  
with God and  
with you...  
we will  
achieve it!

We walk together  
with our  
confidence in  
God, who  
encourages us to  
keep on helping  
our neighbors.

Gratitud is one of the virtues of our elderly.

“Always thankful for you all!”

The spark that always looks for knowledge and wants to share it with the next generation as ideas, projects and dreams.
